WORK EXPERIENCE

Web Designer/Graphic Designer

Normandy Digital Marketing Solutions

February 2023 - November 2023

- Managed several clients as a graphic and web designer. Created website layouts in Figma and executed design layouts, User experience and UI in Figma, Wordpress, Hubspot, Squarespace, WIX and Webflow.
- I have a proven track record of successfully managing multiple clients, demonstrating exceptional time management skills, and excelling in fast-paced environments. I consistently deliver high-quality results by enhancing website metrics, improving SEO, enhancing user experience, and refining overall design aesthetics.
- I have adeptly fulfilled diverse roles as a graphic and web designer, a skilled photographer, a proficient photo editor, and a dedicated learner of coding. Leveraging my versatile skill set, I have been instrumental in driving the expansion of numerous small businesses. I have effectively crafted their brand identities, developed visually appealing and user-friendly websites, and designed captivating logos.

UX/UI Designer

AppStudio 35

April 2022 - February 2023

- Worked under Kristin Pedroza in assisting with wire framing, medical illustrations, as well as creating, managing and organizing all libraries in XD and Figma. Was responsible for refining design concepts, creating UI color pallets, prototyping and conducting user research and pitching them to clients.
- Demonstrated exceptional communication skills through collaborative efforts with fellow designers and stakeholders to conceptualize applications, web designs, and user interface layouts. Conducted UX audits on existing projects and collaborated with the company to enhance accessibility and overall design quality, showcasing a proactive approach to improving user experience..
- Demonstrated proficiency in designing projects comprehensively with a user-centric approach, ensuring end-user needs are prioritized throughout the development process. Generated innovative ideations for applications and conducted valuable qualitative user research to inform design decisions effectively.

UX/UI Designer

Bridger Creative + Tiled

March 2021- October 2021

- Engaged in design sprints to collaboratively identify pain points, develop empathy maps, and establish design systems.
- Demonstrated adaptability and proactivity while working on projects both remotely and in an office setting. Entrusted with multiple projects that granted me full autonomy in design decisions, serving as the sole designer and UX researcher. Responsible for overseeing the end-to-end development of micro-applications, showcasing a strong sense of ownership and proficiency in project management.
- Received client briefs for micro applications, engaged in numerous client meetings to gather requirements, and autonomously developed wireframes, prototypes, and high-quality user interfaces for each assigned project.
